Diagram illustrating a 16-bit register structure, labeled **FIG. 4C**.

The register is divided into four segments, each providing 4 bits. The segments are labeled **1600-1603** and **FROM FROM FROM FROM 1583, 1584, 1585, 1585**.

The bit numbers for each segment are:

- Segment 1600: 13, 12, 11, 10
- Segment 1601: 9, 8
- Segment 1602: 7, 6
- Segment 1603: 5, 4, 3, 2, 1, 0

The register is labeled **BIT NUMBER** and **FROM FROM FROM FROM 1583, 1584, 1585, 1585**.
